MIDWAY KING IS HERE.

Has Special Hawaiian Mission from Pan-American Exposition.

On the China came a very interesting character in the person of W. Maurice Tobin who is known as "The King of the Midway." Mr. Tobin is here on a special mission from the Pan-American Exposition of Buffalo, for the purpose of interesting sugar and other interests in making a competitive exhibition in the division of foods and their accessories. A special department has been established by the exposition in which economic plants, shrubs and raw food exhibits are to be shown. Mr. Tobin was in charge of the Hawaiian village at the recent Omaha exposition and he feels confident that if Hawaii will but exhibit raw sugar and perhaps Kona coffee she will take the first diploma in these classes. He will remain here for several months visiting the various producers and seeking to arouse interest in the Buffalo exposition.

In addition to arranging for the exhibits of sugar, coffee and shrubs Mr. Tobin is also here to secure the W. McCone who has the Midway concession of the Burning Mountain of Hawaii and the Hawaiian village. The volcano of Kilauea which was presented at the Omaha exposition has been remodeled and improved to such an extent that it will never be recognized as having been shown before. Mr. Tobin states that the exhibit which has been remodeled will be a volcano in actual eruption. There will be the leaping fire the molten lava and the hissing steam. Previous to the eruption is given an electric storm which is said to be one of the finest effects of the kind ever seen. Mr. Tobin also proposes to engage Hawaiians to return to the exposition with him and will secure a quantity of curious to be shown in the village proper.

He thinks that the time is ripe now in America for learning some thing of the Hawaiian Islands and he intends to make a special effort to secure the Paris exhibit which Major Potter had in the Trocadero at the French Exposition.

Another Large Shipment of Angle Lamps

"THE ANGLE LAMP"  
The Light that Never Falls

It seems almost incredible that any lamp could be good enough to take the place of electricity on even terms, yet such is the case with the ANGLE LAMP. All over the Islands people are throwing away their old lamps and replacing them with this lamp, not merely because it costs about one-tenth as much to maintain (cost is no object to some people) but besides being infinitely cheaper it is more brilliant and more reliable in the bargain. It is a revelation to every one who uses it, and simply demonstrates that the old-fashioned lamp was a barbarous contrivance. THE ANGLE LAMP never smokes, smells or gives any trouble, is lighted and extinguished as easily as gas, and is the ideal light from every standpoint. We carry these lamps from \$1.50 up.
